

ORDINANCE NO. 2012-O-12

AN ORDINANCE OF THE CITY OF EDGEWATER, FLORIDA, AMENDING CHAPTER 12 (OFFENSES AND MISCELLANEOUS PROVISIONS), ARTICLE I (IN GENERAL) BY ADDING SECTION 12-5 (SMOKING DEVICES/PARAPHERNALIA PROHIBITED) AND SECTION 12-6 (SYNTHETIC ALTERNATIVE DRUGS PROHIBITED); PROVIDING FOR CONFLICTING PROVISIONS, SEVERABILITY AND APPLICABILITY; PROVIDING FOR AN EFFECTIVE DATE, ADOPTION AND CODIFICATION.

WHEREAS, the City Council of the City of Edgewater, Florida, has made the following determinations:

WHEREAS, Chapter 12 (Offenses and Miscellaneous Provisions), Article I (In General) has not been modified since 2011 (Ordinance #2011-O-13).

WHEREAS, the City of Edgewater has encountered products being sold at local commercial businesses containing compounds originally designed as synthetic alternatives (i.e., synthetic cannabinoids/marijuana, synthetic stimulants and/or synthetic psychedelic/hallucinogens) to prohibited controlled substances such as tetrahydrocannabinol (THC), cathinone, methcathinone, MDMA/Ecstasy and MDEA (an analog of MDMA).

WHEREAS, synthetic cannabinoids (also known as “K2” or “Spice”) are chemically engineered substances similar to THC – the active ingredient in marijuana – that, when smoked or ingested can produce a high similar to marijuana and synthetic cannabinoids have been developed over the last thirty (30) years for research purposes to investigate the cannabinoid system, but no legitimate non-research uses have been identified for synthetic cannabinoids and they have not been approved by the U.S. Food and Drug Administration for human consumption.

WHEREAS, synthetic cannabinoids commonly known as synthetic marijuana are chemically engineered substances that can produce an effect similar to marijuana when smoked and ingested.

WHEREAS, substituted cathinones, commonly called “bath salts” and other synthetic drugs are being manufactured, sold and used for their psychoactive properties which may cause serious injury with “bath salts” being synthetic substitutes that mimic the pharmacological effects of amphetamines, cocaine, ecstasy and other illegal/prohibited drugs.

WHEREAS, under the guise of herbal incense and like devices, products are being sold at commercial businesses that contain chemical compounds designed as synthetic alternatives to controlled substances which are prohibited under controlling Florida law.

WHEREAS, products containing these synthetic alternatives are particularly enticing to children and young adults due to their availability in small packages, sometimes appearing as candy, at neighborhood stores and at minimal costs, as well as due to names being given to these substances which are intended to appeal to children and young adults.

WHEREAS, these products are being offered for sale in local gas stations, convenience stores and “head shops” and are designed to mimic the effects of illegal/prohibited drugs such as cannabis, cocaine and amphetamines.

WHEREAS, these products are usually labeled as “not for human consumption” and therefore are not regulated by the Food and Drug Administration (FDA).

WHEREAS, the ingestion of these products has been documented to cause symptoms such as paranoia, severe anxiety, hallucinations, suicidal thoughts, combative behavior, nausea, increased heart rate, seizures and, on occasions, death.

WHEREAS, there is evidence of a growing public safety and health concern regarding the sale of incense products that contain chemical compounds designed as synthetic alternatives to certain illegal/prohibited controlled substances.

WHEREAS, the City Council of the City of Edgewater hereby finds that it is in the best interest of the public health, safety and welfare to prohibit the sale, delivery, possession and use of synthetic alternatives and to prohibit certain smoking devices/paraphernalia.

WHEREAS, by amending Chapter 12 (Offenses and Miscellaneous Provisions), Article (In General) and creating/enacting Section 12-5 (Smoking Devices/Paraphernalia Prohibited) and Section 12-6 (Synthetic Alternative Drugs Prohibited) these types of incidents might be avoided.
