NOW THEREFORE, BE IT RESOLVED, that the City Council of the City of Hollister does hereby ordain as follows:

SECTION 1: The Hollister Municipal Code is hereby amended as follows:

1.1. Section 17.22.235 repealed. Section 17.22.235 “Mobile Food” is hereby repealed in its entirety.

1.2. Chapter 10.50 added. Chapter 10.50 “Mobile Food Vending” is hereby added to read as follows:

Chapter 10.50 - Mobile Food Vending.

10.50.010 - Purpose and Findings.

The purpose of this chapter is to protect the health, safety, and welfare of the Hollister community by providing a set of regulations related to the operation of mobile food truck vendors, on public or developed private property within the City. Unless specifically exempted by this chapter, mobile food trucks shall only be allowed within the City Hollister in conjunction with an approved mobile food vending permit pursuant to the requirements set herein.

This chapter is not intended to enforce and/or regulate pedestrian food vendors, those mobile food vendors who operate human powered push carts, and/or other non-self-propelled vehicles including trailers. Such vendors may be regulated by other chapters in this Code and/or by other State or local laws. A Mobile Food Truck special event requires a temporary use permit not regulated by this chapter.

Findings:

- A. Mobile Food Trucks have the potential to foster an active, vibrant, and social pedestrian environment in areas and communities throughout the City. Although Mobile Food Trucks can be focal point to the community, they can also create certain dangers to public health, safety, and welfare if not adequately regulated.
- B. A Mobile Food Truck vendor is less attentive to pedestrian and vehicular traffic while driving and looking for potential customers which presents obvious traffic and safety risks. A vendor parking their vehicle improperly creating an obstruction can also increase the safety risks to pedestrians and other vehicles. The City of Hollister seeks to prevent this unneeded safety risk of the community.
- C. If Mobile Food Trucks park in highly congested areas to do business then this action might increase, and make worse, existing traffic issues as well as obstruct sidewalks and pedestrian path of travel. As such, this could create increased safety issues for pedestrians for those using the public sidewalk, as well as a safety risk to pedestrians attempting to buy from the vendor. This safety risk seems to increase around schools while children, and their parents, are coming and going from the site.
- D. The City of Hollister has an important, as well as a substantial, public interest to provide the community regulations in an effort to prevent safety, traffic, and health hazards, while also trying to preserve the peace, security, and welfare of the community.
