1 **Section 2:** Chapter 10.32 of the Rialto Municipal Code is hereby deleted and replaced with the
2 following, to read in its entirety:

3 **Section 10.32.010 State speed laws applicable.**

4 The State traffic laws regulating the speed of vehicles shall be applicable upon all streets
5 within this City, except as this Chapter 10.32, as authorized by State law, hereby declares and
6 determines upon the basis of an Engineering and Traffic Study that certain speed regulations shall be
7 applicable upon specified streets or in certain areas, in which event it is unlawful for any person to
8 drive a vehicle at a speed in excess of any speed so declared in this Chapter 10.32 when signs are in
9 place giving notice thereof.

10 **Section 10.32.020 Increasing State speed limits in certain zones.**

11 California Vehicle Code §22357 provides that a local authority may, by ordinance, determine
12 and declare that the speed limit on any portion of any street, other than a state highway, which would
13 otherwise be subject to a prima facie speed limit of 25 miles per hour shall be increased to a prima
14 facie speed limit of 30, 35, 40, 45, 50, 55, 60, or 65 miles per hour, if an Engineering and Traffic
15 Study indicates that such increase would facilitate the orderly movement of traffic and would be
16 reasonable and safe.

17 It is hereby determined upon the basis of an Engineering and Traffic Study that the speed
18 permitted by California Vehicle Code §22357 upon those streets or portions thereof identified in
19 Section 10.32.050 is less than is necessary for safe operation of vehicles thereon by reason of the
20 designation and signposting of said streets as through highways, or by reason of widely spaced
21 intersections, and it is hereby declared that the prima facie speed limit upon those streets or portions
22 thereof identified in Section 10.32.050 shall be as therein stated, which speeds so declared shall be
23 effective when signs are installed giving notice thereof.

24 **Section 10.32.030 Decreasing State speed limits in certain zones.**

25 California Vehicle Code §22358 provides that a local authority may, by ordinance, determine
26 and declare, that the speed limit on any portion of any street, other than a state highway, which would
27 otherwise be subject to a prima facie speed limit of 65 miles per hour shall be reduced to a prima facie
28 speed limit of 60, 55, 50, 45, 40, 35, 30 or 25 miles per hour, if an Engineering and Traffic Study

1 indicates that the prima facie speed limit of 65 miles per hour is faster than what is deemed reasonable
2 and safe.

3 It is hereby determined upon the basis of an Engineering and Traffic Study that the speed
4 permitted by California Vehicle Code §22358 outside of business and residence districts as applicable
5 upon those streets or portions thereof identified in Section 10.32.050 is greater than is reasonable or
6 safe under the conditions found to exist upon such streets, and it is hereby declared that the prima facie
7 speed limit upon those streets or portions thereof identified in Section 10.32.050 shall be as therein
8 stated, which speeds so declared shall be effective when signs are installed giving notice thereof.

9 **10.32.040 Regulation of speed by traffic signals.**

10 The City Engineer is authorized to regulate the timing of traffic signals so as to permit the
11 movement of traffic in an orderly and safe manner at speeds slightly at variance from the speeds
12 otherwise applicable within the district or at intersections, and shall erect appropriate signs giving
13 notice thereof.

14 **10.32.050 Prima facie speed limits established.**

15 In accordance with Section 10.32.020 and 10.32.030, and when signs are erected giving notice
16 thereof, the prima facie speed limit shall be as set forth in this Section upon the follow streets or
17 portions of streets:

Speed Limits Established
